The Cloud-Based Mailroom

Send your documents to the U.S. Post Office through your own Cloud-Based Mailroom

www.docusend.biz

The Cloud-Based Mailroom

- No more trips to the Post Office.
- No minimums, contracts or set-up fees.
- Works with any accounting system or software.
- Reduces need for paper, envelope and stamp inventory.
- Eliminates leasing and maintenance contracts for mailing equipment.
- Eliminates manual labor - less than 2 minutes to upload and you're done.
- Easily access portal for mailing activity dashboard and document images.
- We print and mail your pre-addressed PDF file, no matter where the address is located.
- Mail invoices, billing statements, past due and disconnect notices, welcome and renewal letters, legal documents, tax forms and more.

DocuSend Mailing Features & Options

DocuSend allows you to customize and enhance your mailings with these additional features.

Send Certified Mail

Track and verify delivery for mandated or sensitive documents.

Mail To USA

Mailing from a foreign country to a USA location? Drastically cut postage rates and delivery time by mailing from within the US.

Remittance Envelope

Add a remittance envelope without adjusting your template.

Add An Insert

Communicate with customers at a fraction of the cost of a separate mailing. Upload PDF, PNG, JPEG or JPG files.

Foreign Mail

Mail from USA to any foreign country for only \$0.73 more per envelope. Be sure to include the country as the last line of your address.

Color Printing

Make invoices and documents pop. Highlight important info, showcase logo and use graphics to enhance messaging.

Merge Option

Why mail multiple envelopes to the same address? Combine same addresses in a single envelope to save money.

Report Portal and Image Bank

Access complete history of your mailing activity, including an image of every document mailed in the last six months.
